EDUCATION

LPU, Chandigarh — *M.Sc. Mathematics with Data Science. (pursuing)*

August 2025 - ongoing

Vidyavikas College, Samudrapur, Wardha — *B.Sc. Mathematics*

July 2014 - August 2017

PROJECTS

Hospital Management (UI) — React.js

- Built a **responsive hospital management UI** in React.js with role-based dashboards (Doctors, Receptionists, Admin).
- Improved **dashboard usability by 30%** with a clean and user-friendly interface.

Recurring Date Picker — React.js

- Developed a custom date picker UI for bookings and tours using React.js.
- Enabled users to select recurring dates with an intuitive and user-friendly interface.

Study Platform — PHP, MySQL

- Built a **dynamic web platform** for students and professors to share notes and blogs.
- Implemented **dashboards** for students (syllabus PDFs, online notes) and professors (subject blogs, learning resources).

Weather App — JavaScript, API

- Developed a **weather forecasting app** with a clean UI.
- Integrated **real-time weather API** to display location-based conditions.
